Bad Ragaz, July 15, 2021

INFICON to Publish its Second Quarter 2021 Results on Thursday, July 29, 2021

- **07:00 a.m. CEST: Publication of Media Release, Half-Year Report, and Presentation**
- **09.30 a.m. CEST: Web Conference via Microsoft Teams**

We look forward to welcoming you to the Media/Analyst Conference on INFICON's second quarter and half-year 2021 results. INFICON will host a Web Conference via Microsoft Teams on Thursday, July 29, 2021 at 09.30 a.m. CEST. The presentations and the following question and answer session will be in English. You may join the presentation using the following links

http://bit.ly/IFCN_WebConference

<https://ir.inficon.com/conference-calls-or-webcasts/>

Please make sure that you have access to Microsoft Teams. During the Web Conference, participants will first be in a listen-only mode. After the prepared remarks, Management will take questions via the *voice* or *chat* functionalities provided. The Web Conference will be recorded and later archived in the investors' section of the INFICON website.

On July 29, 2021, INFICON will issue a press release at 07:00 a.m. CEST on the second quarter and first-half year 2021 results. At the same time, the accompanying presentation visuals and the full half-year report will also be available for download in the Investors' section of the INFICON website, www.inficon.com.

ABOUT INFICON

INFICON is a leading provider of innovative instrumentation, critical sensor technologies, and advanced process control software that enhance productivity and quality in sophisticated industrial vacuum processes. These analysis, measurement and control products are essential for gas leak detection in air conditioning/refrigeration, and automotive manufacturing. They are vital to equipment manufacturers and end-users in the complex fabrication of semiconductors and thin film coatings for optics, flat panel displays, solar cells and industrial vacuum coating applications. Other users of vacuum based processes include the life sciences, research, aerospace, packaging, heat treatment, laser cutting and many other industrial processes. We also leverage our expertise in vacuum technology to provide unique, toxic chemical analysis products for emergency response, security, and environmental monitoring. INFICON is headquartered in Switzerland and has world-class manufacturing facilities in Europe, the United States and China, as well as subsidiaries in China, Denmark, Finland, France, Germany, India, Italy, Japan, Korea, Liechtenstein, Singapore, Sweden, Switzerland, Taiwan, the United Kingdom and the United States. INFICON registered shares (IFCN) are listed on SIX Swiss Exchange. For more information about INFICON and its products, please visit www.inficon.com.

This press release and oral statements or other written statements made, or to be made by us contain forward-looking statements that do not relate solely to historical or current facts. These forward-looking statements are based on the current plans and expectations of our management and are subject to a number of uncertainties and risks that could significantly affect our current plans and expectations, as well as future results of operations and financial condition. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
